

Begin with what's left over.
Turn it into what will last.

emeco

Emeco started in 1944. We took salvaged aluminum and made chairs for the US Navy. A war-time necessity. Today it's scrap plastic. We keep it out of oceans and landfills and instead turn it into chairs that last. A planet necessity.

Reduce. Reuse. Recycle. Re-imagine.

111 NAVY

Made from recycled PET.

1 INCH RECLAIMED by JASPER MORRISON

Made from recycled polypropylene and wood fiber.

BROOM by PHILIPPE STARCK

Made from recycled polypropylene and wood fiber.

ON & ON by BARBER & OSGERBY

Made from recycled PET.

111 Navy by Emeco & Coca-Cola

Wasteful turned into hopeful.

In 2010, Coca-Cola and Emeco collaborated to solve an environmental problem: Upcycling consumer waste into a sustainable, timeless, classic chair. By turning the bottles into an iconic chair that is built to last, we keep them out of the waste stream for a very long time - the opposite of disposable.

Each 111 Navy Chair® is made from at least 111 recycled plastic bottles.

1 Inch Reclaimed by Jasper Morrison

What you don't see is as important as what you do see.

With its simple shape, perfect comfort and quiet grace, 1 Inch Reclaimed makes more with less. Built to stand up to tough use whilst sitting lightly on the planet, it affirms the combination of timeless design and sustainable materials.

Made from 90% reclaimed waste polypropylene.

Made in USA

Broom by Philippe Starck

Starck is French. The French eat everything. Suddenly, leftovers are the main course.

Broom is reclaimed, recyclable – and designed to last. Made in America from industrial waste that would normally be swept into the trash. That's why we call it Broom.

Made from 75% reclaimed waste polypropylene and 15% discarded wood fiber

On & On by Barber & Osgerby

Circular by design.

“On & On” is a collection of chairs and stools that breaks new ground with a circular way of thinking, combining longevity of design, durability, and the use of recycled materials that can be recycled – on and on.

70% recycled PET, 100% recyclable.

Made and remade in the USA.

ON & ON by BARBER & OSGERBY

On & On at K5 Hotel, Tokyo.
